

New York Stock Market

New York, February 1.—The generally heavy tone of today's stock market was due to neglect as much as to any active selling pressure.

To-day's demonstration invaded a new field and brought with it some suggestion of measures of resentment against the trading enterprise of a newer figure in the railroad world.

The additional speculative purging, the necessity for which was thus disclosed, helps to account for the repression of the speculation.

Money worked easier again in New York. The failure of the bond market to improve with this development was one of the factors in the present situation.

The final rally in prices was the sign of the relief afforded by the day's liquidation, and left a struggling show of small net gains.

Bonds were easy. Total sales, par value, \$2,233,000. United States bonds were unchanged on call.

Total sales of stocks for the day were 555,600 shares. New York, February 1.—Money on call easy, 2 1/2-2 3/4 per cent.

Time loans very soft and inactive; six days and ninety days, 2 3/4 per cent; six months, 4. Close: Prime mercantile paper, 1-1/2 per cent.

With actual business in bankers' bills at \$4,820 and \$4,860 for sixty day bills, and at \$4,860 for immediate. Commercial bills, \$1.82 1/4-\$1.83 3/4.
